

Precision Portable DC Load Testing — Engineered for the Field

A24-350 Portable Load Bank

WHY THE A24-350?

Field service and battery testing made simple. This compact unit delivers a temporary resistive load for 24V DC batteries and power supplies in a lightweight portable package. Perfect for commissioning, maintenance, and troubleshooting 24V DC systems. Load adjustable from 0–400A at 24VDC.

KEY BENEFITS

- 0–400A adjustable load at 24VDC
- 100A and 200A fixed steps plus 0–100A adjustable step
- Integrated metering: 0–50V voltmeter, 0–400A ammeter
- Air-cooled and completely self-contained
- Compact & lightweight: 22" × 8" × 11", 42 lbs
- Carrying case included for easy transport
- Thermal protection for safety
- Plug test pins for test leads
- Power indicator light

SPECIFICATIONS

- Continuous Duty Rated – Designed for field servicing and extended testing of 24V DC batteries and power supplies
- Dimensions: 22" L × 8" W × 11" H
- Weight: 42 lbs
- Meters: 0–50V voltmeter, 0–400A ammeter
- Air-cooled, self-contained design
- Load range: 0–400A @ 24VDC

A24-350 Portable Load Bank

IDEAL FOR

- Field servicing of 24V motive batteries
- Testing 24V DC power supplies
- Battery capacity & performance validation
- Forklift and industrial battery testing
- Material handling equipment maintenance
- DC system troubleshooting & commissioning

FEATURES

- 100A and 200A fixed steps, 0–100A adjustable step
- Plug test pins for connecting test leads
- Power indicator light
- Thermal protection
- Rugged carrying case included
- Completely self-contained — no external cooling required

Load Step	24VDC
Adjustable	0–100A
Fixed	100A
Fixed	200A
TOTAL AMPS	400A
